

Reinson Consultants Ltd.

FIELD COURSE

Cretaceous Channels and Associated Deposits of Southern Alberta and Northern Montana

Dates	July, August, or September
Registration Fee	\$1350 CND plus GST
Instructor	Gerry Reinson

This four-day field course involves outcrop examination of prolific hydrocarbon-bearing units in the subsurface of southern Alberta and Saskatchewan. The course will be of interest to geologists, geophysicists, and engineers working on clastic and mixed clastic-carbonate reservoirs in the Foreland Basin of Western Canada. This course can be tailored to meet specific company requirements with respect to scheduling dates.

This course is run only as a company specific field trip, with number of participants restricted to 14 including instructor. An all inclusive price can be negotiated (depending on # participants).
